My name is Anna Marison. I am the 3rd grade homeroom teacher. I also teach science and social studies in the afternoon to both 3rd and 4th graders. I got my bachelor's in elementary education at Mckendree University in 2023. While I was at Mckendree, I did my student teaching at Smithton Public Elementary School. Before I started teaching at St. John's the Baptist, I was a substitute teacher in local schools for one year.

In reading we are learning about multiplication and division. These are two big math skills that the students will need to use in their everyday life. In addition to multiplication and division we will also be learning about fractions.

My family consists of my dad and my brother. They both mean the world to me. I have been in Belleville for my whole life. Something that I like to do is paint, knit, and bake. I love when I get to be creative. I also love to watch the Blues play.

Even though it is only my first year here. I love St. John's. I love the community here and feel very welcomed.

Miss Marison
